meeting the COVID need...

ACADEMIC & CAREER SUCCESS PROGRAMS are designed to ensure all students graduate high school on time, ready for post-secondary education or job training and a career they are passionate about. We provide supportive staff, educational stability, and opportunities that help youth face educational challenges. Youth grades 1 through 6 at the clubhouse connect with a case manager for distance learning support during the school day to ensure academic success. Our virtual learners discover topics including college exposure, study tips, science, and anatomy. In the 2019-2020 school year, 431 Club youth ages 11 through 18 received one-on-one case management.

GOOD CHARACTER & CITIZENSHIP PROGRAMS support youth in developing strong character while taking actions that make a difference in their communities. We work to ensure all youth build leadership skills and have opportunities to become responsible, caring citizens and community members. Our programs include social-emotional wellness and cultural competence components, and youth are empowered to be a part of the solution to dismantling racial inequities they experience. In the 2019-2020 school year, 178 Club youth took part in leadership Clubs, life skill activities, and volunteer service.

HEALTHY LIFESTYLES PROGRAMS develop the capacity of young people to engage in positive behaviors that nurture their own wellbeing, help them set personal goals, and live as self-sufficient adults. Club youth take part in sports and fitness programs, experience healthy food options, and work with mentors to express and understand themselves through programs resulting in social, emotional, and physical wellbeing. Wellness calls to kids and their families ensure they have the resources they need to get through the school year. In the 2019-2020 school year, 1,690 Club youth stayed active through activities such as flag football, dance, soccer, and t-ball.
